There are many words in English language. It's impossible to count the number of words in a language. Have you ever thought about where English words are from? Many basic English words come from Old English, such as, England, house, woman, man, child, bird, water and etc. Other English words come from Latin, like, family, number, school, educate. Some English words come from French. For example hotel and menu are two French words. Today English is an international language. Thousands of English words come from other languages. Every year hundreds of words come into English from new technology, e.g., internet, text message, e-mail and etc. English speakers have "stolen" words from other languages and added them to English. That are known as "loanwords" or "borrowings," which are derived from other languages. The next time you hear one, tell your friends where the word originally came from!

Another story is about two Americans traveling in Spain. They could not speak a word of Spanish and one day, while sitting in a restaurant in a small village, they wanted to order their food. One of them wanted a glass of milk. The waiter was not able to understand. Finally, on a piece of paper the man drew a picture of a cow, and tried to show to the waiter that from a cow one gets milk. The waiter looked at the picture a long time. Finally, he left and was away for an hour. When he returned he had two tickets for a bullfight.
